of clothing is saved, and not one-fourth the amount of labor is required to do the washing of a family.

The tendency of these Soaps is to soften the Cloths and remove the dirt; and in their use, the hands are made soft, the complexion clear and white. Washing is done by simply rubbing the Soap on the parts of Clothes most soiled, and placing them in water sufficient to cover them—there let them remain a few hours—then with a slight hand rubbing and good rinsing they will be perfectly clean and beautifully bleached, and without injury to the most delicate fabric.

The cost of these Soaps is no more than those ordinarily used; and beades this, the great wear and tear of Challing consequent upon the old method of hard rubbing upon a Board, Machine, Pounding, Barrel, &c. &c., is wholly avaided, and fuel being entirely dispensed with, an immense saving is thus made.

By applying it to your Capets, it will remove all grease and spots of dirt, without in the least injuring their color or texture.
